## PSA-RSSO1 continues to strive for a higher registration output in PhilSys

Date of Release: 29 December 2023  
 Reference No. 2023- 050

The Philippine Statistics Authority – Regional Statistical Services Office 1 (PSA-RSSO1) and its Provincial Statistical Offices (PSOs) continued striving for a higher registration output in the Philippine Identification System (PhilSys).

As of November 30, 2023, the PSA-RSSO I and its PSOs have collaborated to register a total of 4,166,381 individuals under the PhilSys. This positive result was strengthened by the implementation of PhilSys on Wheels (POW) registration, which makes it possible for physically incapable individuals to register for the system without having to travel to a registration center. Moreover, in November, an additional 29,368 Filipinos were registered in the Ilocos Region.

The majority of the total PhilSys registrants in the region as of 30 November 2023 were from the province of Pangasinan which accounted 59 percent, followed by La Union which shared 16 percent, while Ilocos Sur and Ilocos Norte accounted for 14 and 11 percent, respectively.
