

PRESS RELEASE

PSA - La Union conducts 1st Quarter 2022 Fisheries Surveys

Date of Release: 16 March 2022

Reference No. 2022-13

The Philippine Statistics Authority (PSA) – La Union Provincial Statistical Office carries out the 1st Quarter 2022 Fisheries Survey in the province that includes Commercial Fisheries Survey (QCFS), Municipal Fisheries Survey (QMFS), Inland Municipal Survey (QIFS), and Aquaculture Survey (QAqS) on March 14 to 25, 2022.

The surveys aim to generate data on volume and value of production on fisheries and aquaculture by aqua farm type. The statistics that will be generated through these surveys will serve as input in the compilation of national accounts, estimation of performance of agriculture, researches and studies, policy making, and program implementation. This will also serve as guide in the development of appropriate policy measures and support programs to help fisher folks cope with the impact of community quarantine and continue their fishing activities and livelihood.

PSA-La Union hired and trained 14 Statistical Researchers (SRs) who will visit fish landing centers for commercial and municipal fisheries along with the selected sample aqua farm operators and inland fishing households to generate fisheries outputs in coordination with the Local Government Units (LGUs).

Meanwhile, the key results of the 4th Quarter 2021 Fisheries Surveys in La Union are the following:

- La Union ranked second among the provinces of Ilocos Region in terms of fisheries volume of production in 4th Quarter 2021. It contributed 4.42 percent to the total volume of fish production in the region.
- The total volume of fisheries production in 4th Quarter 2021 was estimated at 3,555.79 metric tons which was 17.99 percent higher than 3,013.73 metric tons estimate in 4th quarter of 2020.
- The commercial fisheries volume of production in La Union reached 516.09 metric tons in the 4th Quarter 2021. The output went up by 54.66 percent from its level in 4th quarter 2020 of 333.69 metric tons.
- Production from municipal fisheries in La Union in 4th Quarter 2021 was estimated at 2,166.14 metric tons, higher by 28.71 percent than its output of 1,682.94 metric tons in 4th quarter 2020.

- The total value of all fisheries production in La Union in 4th Quarter 2021 was recorded at PhP523,397.65 which was 14.98 percent higher than its value in the same quarter of last year at PhP455,197.20.

The PSA enjoys the support of the LGUs and cooperation of sample fishermen in providing truthful, complete and accurate information to the SRs. All the data and information collected by SRs from sample fishermen are for statistical purposes only and shall not be used for purposes of taxation or investigation. Information obtained from the respondents shall be accorded strictly confidential as provided under Republic Act (RA) 10625.

Furthermore, the PSA assures that all hired SRs are in good health condition and will strictly follow precautionary measures against COVID-19 such as strict observance of social distancing, wearing of face mask, and proper hygiene and sanitation. The PSA shall also observe all protocols laid down by the LGUs.
