Population increases by 18 persons per year for every 1,000 persons

The municipality's population count grew from 2015 to 2020, resulting to an average annual population growth rate (PGR) of 1.81 percent. This equates to an addition of approximately 18 persons per year for every 1,000 persons in the population. (Figure 2)

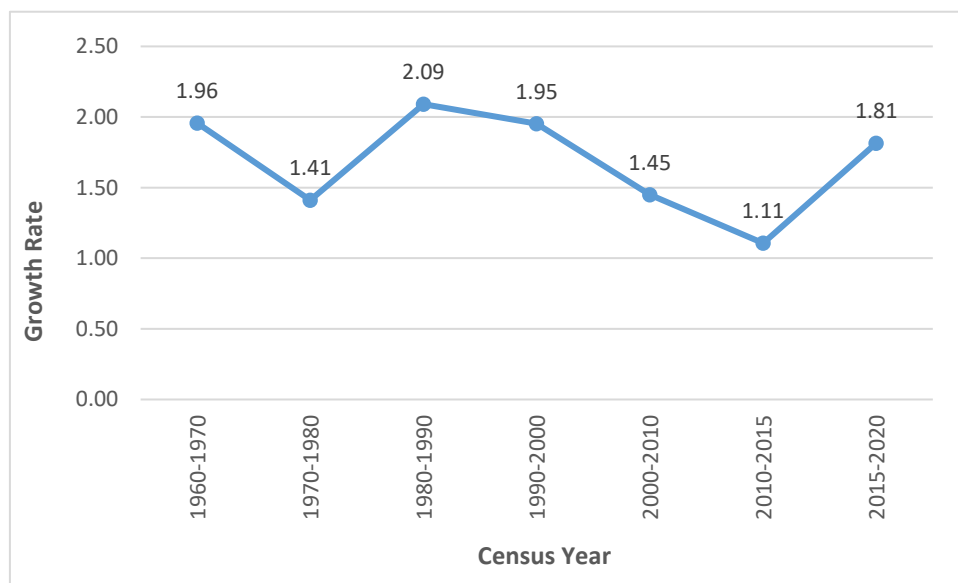

The annual PGR was lower at 1.11 percent during the period 2010 to 2015 and at 1.45 percent during the period 2000 to 2010.

If the average annual PGR recorded at 1.81 percent during the period 2015 to 2020 continues, the population of the municipality would double in 39 years.

Sixty years ago, the population of the municipality was only 14,516 persons. This population size is more than one-third of the population of the municipality in 2020 CPH.
