Palay Yield by Ecosystem

(in MT/Ha)

Volume of Production and Area Harvested by Ecosystem

Technical Notes

Palay Production Survey (PPS) is a quarterly survey that generates estimates and forecasts data on production, area and yield of palay. The survey gathers information on the area planted/harvested and production by ecosystem; monthly distribution of production and area harvested; farm household disposition/utilization of production; area of standing crop; use of seeds, fertilizers and pesticides; and awareness and availment of program interventions.
