Technical Notes

Palay Production Survey (PPS) is a quarterly survey that generates estimates and forecasts data on production, area and yield of palay. The survey gathers information on the area planted/harvested and production by ecosystem; monthly distribution of production and area harvested; farm household disposition/utilization of production; area of standing crop; use of seeds, fertilizers and pesticides; and awareness and availment of program interventions.

Area Harvested for Palay by Province

Ilocos Region 3rd Quarter 2023

The area harvested for palay in the province decreased by 6.06 percent from 3,334.00 hectares in 3rd quarter 2022 to 3,131.84 hectares in 3rd quarter 2023.
